Lr.No.TNEBEA/GS/D. 30 /2022 dt:03.03.2022

Dear Sir,

Sub: TNEBEA – Agriculture service connection target-
Certain issues and difficulties faced by Section officers –Reg.

Vanakkam !!

The Association would like to bring certain issues and difficulties faced by Section officers in achieving Agriculture service connection target,

The Government of Tamilnadu in the month of September 2021 announced 1,00,000 service connections for Agriculture sector and also announced that these service connection will be effected before March 2022. Because of this huge target which is to be achieved within less than Seven months Section officers are fully depending on the certificates issued by revenue officials and depend on the Agriculturist to identify the location & survey number and actual applicant & present owner.

Hence the field Engineers are affride of the bogues certificates/wrong informations which can not be verified with concerned authorities too due to dearth of time limit. Where as the same may end up in unlawful deviation and for which the officers made responsible at later date.

Further, with the released old conductors, which are served its lifetime, are being used to effect the agriculture connections due to not availability of the new conductor. This is a very risky, may snap and cause accident for which the employees made responsible.

Hence association requests that despite the officials are ready to complete the assignments coping with much hardship, expecting the management to support and protect them at all stage in the light of above.

Thanking you Sir,

Yours sincerely,

(T.JAYANTHI)

General Secretary/TNEBEA.
